POSITION ANNOUNCEMENT **TENURE TRACK POSITION(S)**

Lowell Observatory invites applications for one or more tenure-track positions in astronomy or planetary science. We seek to add early-career scientists with a strong potential to enhance research at Lowell Observatory. Our scientists are free to pursue research projects of their choice; while they typically bring in a large fraction of their salary through grants, these positions are not contingent upon external funding.

Current research at Lowell Observatory spans a wide range of disciplines from planetary science and exoplanets to stellar astrophysics, Galactic and extragalactic astronomy as well as instrumentation. Staff have access to the full range of resources of the Observatory, including the 4.3-m Lowell Discovery Telescope (LDT), the Naval Precision Optical Interferometer (NPOI), several 1-m class telescopes, the Astrophysical Materials Lab at Northern Arizona University, and our instrumentation and engineering resources. Lowell offers numerous opportunities to work with undergraduate and graduate students from nearby Northern Arizona University as well as other universities around the country and the world. Lowell's new Astronomy Discovery Center, which will open in 2024, and the award-winning Native American Astronomy Outreach Program offer additional opportunities for staff to engage in science communication as part of the observatory's education and public outreach mission.

QUALIFICATIONS AND EXPERIENCE

Applicants are expected to have a Ph.D. in astronomy, planetary science, or a related field and have demonstrated a potential for independent research and for acquiring external funding. Lowell Observatory is committed to diversity and inclusion in its workforce; we particularly encourage applications from under-represented groups.

Applicants will be assessed according to their scientific potential, their potential to complement and enhance science at Lowell Observatory, and their potential to acquire external funds. Interest in science communication and in engaging the public in astronomy and planetary science is a plus.

WORKING CONDITIONS

Long periods of standing or sitting at a computer are required. A valid driver's license or ability to obtain one is required. Driving in winter conditions on mountain roads is to be expected. The position may include periods of night-time work. Our telescope facilities are located 15-45 miles outside of Flagstaff.

To Apply:

Please send the following documents in a single pdf to sciencejobs@lowell.edu

- (1) Cover letter explaining the applicant's interest in the position, how they will complement and enhance research specifically at Lowell Observatory
- (2) A current CV with a full publication list
- (3) A research plan (maximum 3 pages excluding references) tailored to the scientific environment that Lowell Observatory provides
- (4) Lowell Short Form Application (<https://lowell.edu/about/career-opportunities>)
- (5) The names and email addresses of three individuals who have agreed to send reference letters by May 31st 2022 to sciencejob@lowell.edu. Candidates should request the reference letters themselves.

Complete applications received by May 31, 2022 will receive full consideration.

For further information, contact Christoph Keller, Director of Science, at ckeller@lowell.edu.

***Benefits Overview:** In addition to 11 scheduled paid holidays, Lowell Observatory offers a Flexible Paid Time Off policy for all full-time, benefit eligible employees which allows you to determine how much time you need to rest and enjoy yourself outside of work. Paid time off also includes paid Parental and FMLA leaves. The cost of premiums for medical, life & long term disability insurances for benefit eligible employees is 100% paid by the company, and includes a contribution to either an H.S.A or HRA account for first dollar medical expenses. A portion of dependent medical insurance is paid by the company. Up to a 5% match on retirement contributions after 6 months of employment and funds in lifestyle spending account provided by the observatory.

Employment is subject to passing a background check

Lowell Observatory is proud to be an equal opportunity workplace and is an affirmative action employer. We are committed to equal employment opportunity regardless of race, color, ancestry, religion, sex, national origin, sexual orientation, age, citizenship, marital status, disability, gender identity or Veteran status. Lowell Observatory has always been, and always will be, committed to diversity and inclusion. We seek individuals from all backgrounds to join our teams, and we encourage our employees to bring their authentic, original, and best selves to work.

Lowell Observatory sits at the base of mountains sacred to tribes throughout the region. We honor their past, present, and future generations, who have lived here for millennia and will forever call this place home.

Lowell Observatory is committed to providing access, and reasonable accommodation in its services, programs, activities, education and employment for individuals with disabilities. Our non-smoking campus is at an elevation of 7,200ft/2200m, and the LDT is 40 miles south of Flagstaff at an elevation of 7,800 ft/2370m. If you need a reasonable accommodation for any part of the application and hiring process, please notify the Human Resources office for assistance.
